LETTER OF REFERENCES

Uni-Bel Sp. z o.o. Ltd, which continues the operations of P.B. UNIBUD and P.U.H. BEL has been doing renovation, construction and installation works in the premises of our company in Elbląg since 1999.

It involves modernisation of offices and production workshops in the following scope:

- 1) construction works:
 - foundations, floors, walls, finishing and trimming works, roofing;
 - wall padding, PCV and ALU door and window frames
 - brick facades renovation
- 2) electrical works:
 - low voltage, thunder protection and telephone systems;
 - switching stations;
 - design and measurements;
- 3) central heating, air-conditioning and design.

Very many building technologies have been applied, among them:

- 1) epoxy and acrylic floor coating;
- 2) renovation wall plaster to the humid rooms and silicate waterproof membranes.
- 3) repairs to the ferroconcrete structures following given systems;
- 4) wall coating such as: quartz plaster, spray wall paper, glass fibre coating;
- 5) the so called floating floors of high resistance panels;
- 6) light padding to buildings.

We are happy to recommend Uni-Bel Ltd. as a good and reliable partner fulfilling their liabilities completely and responsibly.
